

# LM-SLIM LINE HIGH BAY

Highest LPW – Lowest Profile

The LM-Slim Line High Bay is the most innovative slim line high bay on the market.

The simple uni-body design offers the narrowest and shallowest housing in class. Designed with the contractor in mind, the SLHB is simple to install for both surface mount and with aircraft hangers. The polycarbonate body and lens provide for an attractive, yet durable luminaire for even the most challenging of environments. Hanging cables and power whip included.

### 7 Year Non-Prorated Warranty

LED Stick Company recommends Transient Voltage Surge Suppression (TVSS) on circuits controlling LED lighting. If a warranty claim exceeds 0.5% of installed lights and the lights are not protected by a TVSS, the warranty may be voided, resulting in denied claims. Always check for an Open Neutral Voltage and current on the neutral is dangerous and can cause LED failure and void the warranty.
